

LEGION VOLLEYBALL

Volleyball done right

Mission Statement

Legion Volleyball Club is a new volleyball program located in Morris County, NJ. We are a non-profit youth sports organization committed to providing quality physical and personal development through practice and competition through the sport of volleyball.

The club was founded to provide the best possible volleyball experience through helping players develop a better understanding of fundamental skills and decision making. The program focuses on the development of the athlete as a player and a person. Athletes will learn about the game of volleyball as well as the education and commitment required to reach and maintain a high level of success.

Our program focuses on exposing players to goal setting, taking actions, measuring their results against their goals, and experimenting in order to develop the best possible understanding of the game of volleyball and of their own potential and capabilities.
